18/12/07	<p>Cont - see court hearing written 6/12 to check criminal inj compen. board.</p>	
	<p>Migraines - left side always tender & painful - occ. frontal headaches - no exp to bright light lately.</p>	
	<p>Meeting - Rehab in Jan 7th 2005; last 3/2 ago.</p>	
	<p>Jobs - used to do reading & training - both have bright lights - also high stress / speed.</p>	
	<p>FW - check availability of other jobs. (not) - David Nelson informed me that prev job no longer available (not required). m</p>	
5/2/08	<p>Current symptoms - funny taste & eating - eg this morning - voices in head & strange smell - haven't been under bright lights - sleep now like as times - most days part in bed - & mood - Concentration - normal - Not fearful. Irritable / agitated.</p> <p>Recently saw consultant (in January) - will be referred back to therapist's place & reason they don't want him to come back to work</p> <p>High blood - he thinks he could do some kind of work as long as it was 37 1/2 hrs not 43 hrs more as did 2000 calculations on computer - made system to prevent need for that</p> <p>Now is quiet - chocolate - 1 BTZ - good IT.</p> <p>Paracetamol is , used, used, Paracetamol - data entry collection also did Access - spreadsheet - database</p>	
19/3/08	<p>Report from GP - post traumatic syndrome. After last consult told P Nelson to look out all duties in the office but I would have some concerns that he might suffer more stress due to the difficulty in coping with the amount of stress and 'baffle' in the typical office environment. m</p>
