

Job Coach Continuation Sheet

Client Name: Brian Nesbitt
Job Coach: Karen Belton
Date: 28th September 2001

Issues Discussed:

Job Coach met with Dave Nelson at Dunlop to discuss the type of position that is most appropriate to Brian Nesbitt. We discussed Brian's areas of difficulty as a result of his head injury in detail including fatigue levels; headaches; and sleeping pattern, and how as a result of these difficulties it would not be appropriate for Brian to work a shift pattern. We discussed the support that Rehab UK offer to Brian and to Dunlop. Dave was already aware of the support from Rehab, as we had discussed this before, his concern was more directed towards the commitment that Brian would give to Dunlop. Job Coach assured Dave that Brian wishes to remain working with Dunlop.

Dave Nelson identified a position working on computers that is day shift position, which has recently been internally advertised. If this is appropriate for Brian, Dave is willing to try a 2-week placement working within the environment. If it is appropriate then Brian would be offered the position.

Goals Set

- Job Coach to discuss position with team
- IT Tutor to visit Dunlop with Job Coach to identify if computer programme would be appropriate for Brian.
- Job Coach to discuss position with Brian

Signed Job Coach: *Karen Belton*

Job Coach Continuation Sheet

Client Name: Brian Nesbitt
Job Coach: Karen Belton
Date: 1st October 2001

Issues Discussed:

Job Coach and IT Tutor met with Dave Nelson at Dunlop to discuss the Quality Technician Admin Assistant position in more detail. The role involves changing old computer codes to the new codes. We met with Steve Dixon who Brian would be working along side. The working environment has limited distractions, in that Steve and Brian would share a large office. There is no one else in their office. It is a relaxed atmosphere, breaks are taken when required. The noise of the factory can be heard however it is not loud and is not distracting. Job Coach felt that the environment would be suitable for Brian. IT Tutor discussed the computer programme and procedures with Steve, although the system seemed complex it was felt that with support and guidance Brian would be able to use the system without difficulty.

Goals Set

- Feedback to team
- Job Coach to discuss position with Brian
