16/4/03.	Occasional Army turn - no full Sloan and	
	Lately. No Army smell.	
	Lots of headaches, disorientation, tones in his	
	ears & agitation.	
	Finds people are staring at him on the bus - so looks down.	
	- tries to calm himself down & usually manages.	
	Occ has voices - just tones & syllables, not words	
	- general sense they are unfriendly.	
	Headaches - frontal & sometimes temporal.	
	Sometimes dizziness, usually when agitated.	
	Conc° - 'perfect' except in attacks.	
	Irritability - finding it easier to relax & let others	
	get on with it.	
	Sleep - generally OK - variable. Worse on occasions & Rarely.	
	Mood - OK Lately.	
	Own training - worked but couldn't understand manual (regularly accessed)	
	managed W, Spr, & db & powerpoint.	
	Plans for Future - decent chances.	
	Report dictated
